

"WAR" IN SURREY - - The 1st Cavalry Brigade
exercises begin in the Aldershot area.-Frimley Green-

Picture: - "In times of peace, prepare for war!" is a
maxim necessarily--

--stressed by the army authorities. The first cavalry
brigade--

--operating in the Aldershot area, conduct a little war --

--of their own, to keep their hands in, as it were! The
Westland Army moves to protect--

--its coast line. The High Command has ruled that the
sea is very near --

--Aldershot for the purposes of this fake war. Advance--

--signallers send the news of enemy approach and the field--

--telephones pass it on to Headquarters. A plan of defence
is--

--agreed and carefully hidden machine gunners prepare a
deadly welcome--

--for the attackers. The Eastlanders commence their
advance from the--

--dry beaches of Bisley and Firbright.

In these days of economy campaigns,--

--rattles take the place of blank ammunition. Sound
effects don't cost so much as cartridges, so--

--perfectly good officers make noises like--

--machine guns, which is cheaper for the rate-payers.
And the--

--exercises serve the excellent purpose of keeping
the men fit to enjoy peace time!
