"ROLLEO" IN THE WEST - - American lumberjack stars
vie for honours in far-west "logging" contests.

-Longview, Washington-

Picture:- The lumbermen of the--

--Far West haven't got steers, but they've--

--got logs, so they have a "rolleo". This is a race that
doesn't get you anywhere !, except in the water ! That's
cool, anyway !

This makes one hot to look at it ! Cutting a four foot--

--log so fast that a helper has--

--to oil the saw to keep it from setting the log on fire.

Here's a new one ! Topping a 150--

--foot spar in less--

--than eight seconds. It requires a--

--lot of skill and nerve,--

--and if you come down the wrong way up, you don't get
any prize, only a ride in an ambulance !
