TOURIST TROPHY RACE - - Thirty famous drivers
compete in the great international contest over the
Ards Circuit, near Belfast.-N.Ireland-

Picture:- Everybody who can spare the time, (and a good many who can't), is here to-day to--

--see the great international "Tourist Trophy" race over the Ards Circuit. Many--

--of those who know the course say it should be called the Hard-circuit ! The race is on, with the first--

--cars all well away, before the "scratch" cars leap into life on their tails. They have thirty laps of--

--nearly thirteen miles to do. Further than from London to Glasgow !

At Quarry Corner they swing into Bradshaw's Brae awakening the echoes with their roar.

It is claimed that this is one of the finest tests of a car and driver--

--in the world. Most of us will accept that without question ! The owner of the sand-bag protected butcher's shop--

--at Comber believes in safety first - and who can blame him,--

--when speed-monsters go hurtling past his window in this way ? (Alright so long as they go past !)

Barrels lining the pavements might take a man's mind--

--off his job, if it weren't that his life depends on concentrating on such bends as this !

TOURIST TROPHY RACE.

-2-

It is Dundonald Hairpin, the most dangerous corner of the entire circuit.

So it goes on! Dashing--

--through villages and hamlets, startling the natives out of their usual calm,--

--each man intent on passing the ~~time-keepers~~^{post} before the--

--other fellow. The time-keepers'--

--job is no sinecure ~~during this race~~^{either} !

Well -- that's the end of my story ! Except that--

--C.R. Whitcroft is the winner at seventy--

--four-point-two-three miles an hour. Good health to you, Sir !
