

A DAY OF "DROPS" - - American parachutist breaks world record with fourteen "jumps" on one day !

-Dayton, U.S.A.-

Picture.:- I've heard of some strange habits, but this sort of thing--

--beats me ! And Wykie Hyman is out to do it more than twelve times in succession !

It's his busy day, alright ! The more he falls, the more he rises - - in the estimation of everyone who admires pluck !

Time after time he repeats the operation.
Up in a plane - - out of it, and down - - and then up once more ! Every "landing" perfect !

Let's watch him from his own machine ! ...

Ready ? Go ! He calmly steps off into space for the fourteenth time in--

--eleven hours ! ... And I suppose he is one of those chaps who will never die of a "drop too much". ... More likely, when his time comes, he'll slip on a bit of orange peel !,--

--and break his neck ! Watch your step, boy !
