CLEARING THE WAY - - Four-ton blast removes
entire hill from the path of bridge-builders.

-Delaware, U.S.A.-

Picture:- There's too much earth in the way of the
proposed new--

--bridge, so they have appointed to-day as--

--moving day ! ... Dynamite is dangerous stuff, so
they put it to bed--

--in the coziest of mud, and very soon "all is set"--

--for the big blast ! It's every man for himself !

O.K. ? Now !

(ROAR EFFECT OVER FIRST 6 SECONDS)
(THE FALL DEBRIS AS BACKGROUND).

That's what happens when four tons of dynamite
says "Go !" to an unwanted bump in the earth.
Now, they can get on with the new bridge !
