SUNSHINE IN KINGSTON -- Sunshine and a big floating raft attracts large numbers of bathers to the Thames.

-Surrey-

Picture:- The only thing that shouldn't be in this picture is the barge. It is a reminder that someone is --

--working ! Hundreds of the more fortunate--

--ones crowd the big raft moored in mid-stream and enjoy the cooling influence of--

--Father Thames.

(LAUGHTER AND SPLASHES TO END OF SHOT).

Some prefer to sun themselves on the banks, and --

--of course, one's hair gets all anyhow !

Bathing suit manufacturers should have had a great time this year. They have certainly dealt with more figures than ordinarily in our 24-hour summers ! There's a hint for some of you !
