"THE FLYING CIRCUS"- - Sir Alan Cobham thrills the
people of South Wales with his fleet of flyers.-Nr.Swansea-

Picture:- "The circus comes to town" has a different
meaning--

--nowadays. Instead of sawdust and spangles, planes
and petrol attract the crowds.

Here, they are queuing-up in their hundreds for--

--the thrills only flying can give. It is all
they can do, to cope--

--with the rush. While the sensation-seekers
are up--

--in the air Sir Alan Cobham talks on "air-mindedness"--

--to those below. The passengers in this 'bus'
are having a 'rolling' time. Over 4,000--

--go up in one day ! Martin Hearn is surely the
"star" of the circus !

To see a fellow standing on the top ^{wing} ring of an
aeroplane, as it shoots through the air at a hundred-
miles an hour, is a thrill--

--even the beautiful lady in tights standing on a dashing--

--gee-gee couldn't give us in the old days !

Twenty-thousand people saw you to-day Martin !
Some audience that !
