"MINIATURE" PARADISE FOR BOYS - - Some of the tiny  
marvels at the Model Engineer Exhibition at  
Horticultural Hall. -London-

---

Picture:- Little things please all sorts of minds. ....  
That's why it is that boys of--

--all ages are attracted by the wonders of the Model  
Exhibition. .... Miniatures of modern ships--

--as well as tiny replicas of old "wooden walls" bring  
delight to lads--

--of to-day and yesteryear. .... Mr. Saunders, one  
of whose ancestors sailed with Nelson, is in his element  
with ships of--

--bygone days. .... It wants patience to 'bottle'  
them in this way. ....

Our great railways might well envy the model - - for  
it is packed--

--to capacity. .... See how it dashes along with  
its human freight of five souls aboard - - sorry, five-  
and-a-half ! ....

This is the sort of thing father buys his son,  
so that--

--father can play with it ! .... CRASH ! ....  
Shocking disaster at Lilliput--

--Junction ! .... Boy, get me a paper ! ....  
BAH ! .... Make it two papers !

Marionettes, too ! .... 'Life' hanging on a  
thread ! .... Looks like an idea for a new dance  
rhythm ! ....
