A MATTER OF FORM - - Judges have a difficult
task at competition to find the shapeliest girl in
Morecambe, Lancashire-

Picture:- Who is the shapeliest girl in Morecambe ?
Forty-nine entered for judging, but these survived
after the final thinning down of the competitors' list.
The judges' viewing may be a pleasant job, but I can
imagine nothing more difficult than making the final
choice. They all look so good.

Carl Brisson should be an excellent judge anyway.
He--

--won't go far wrong. Incidentally, I must mention
that, over and above getting a free ticket, our
cameramen get paid for taking these pictures. After
much--

--tribulation, Mr. Brisson decides on these three - -
Annie Broadbent of Manchester, Vera Marchant of
Lancaster, and Betty Thompson-

--of Blackpool. Carl's taste is improving. Last
time I saw him he was collecting old pewter.
