

SPORTS OF THE WARSPITE -- Boys of the famous training ship come ashore for their annual athletic meeting on the Playing Field abreast of the ship.

-Grays. Essex-

---

Picture.:- We must forgive the boys in training on--

--the Warspite for being rather excited and more than usually eager to get ashore to-day. It is the occasion of their annual--

--sports, and many of them will return aboard later with cups and things they've won !

Off for the half mile flat--

--race. Sprinting like young hares, eager and anxious to break the tape and secure a first.

An obstacle race! The favourite event with competitors--

--and spectators. This is rather strenuous, but it has got to be done, and quickly !

Now a dive and scramble through the lifebelts and after all that to the--

post. The winner sprawls home, chased by the runners-up breathless and staggering ! Fine healthy fun !
