Austria.

Picture.:- The newest member of the Hapsburg family
makes his first public--

--appearance in the arms of another Hapsburg. King-

--Alfonso, late ruler of Spain, who is also his godfather.
The child is the son of Princess--

--Ileana of Rumania and Arch-Duke Antoine of Austria.

This is really a royal party, headed by ex-King Alfonso,
and Queen Marie of Rumania, the baby's godmother. There are
Queen Elizabeth of Greece, a near blood relative, the
Arch-Duke Von Jolt, and others of royal--

--blood. The affair is notable also for the entire lack
of formality, which is often--

--a feature of such occasions. The Arch-Duchess--

--Majorie has the honour of carrying the baby to--

--Church. A crowd of--

--royal sympathisers shows the world's eternal interest
in children born--

--of high degree - - and the baby's name is Stephen.
