REINDEER ON THE RUN - - Norwegian government
orders great round-up to provide food for the poor.

-Skjaak-

Picture.:- There are too many of them ! In Australia,
it's rabbits ! In--

--Norway, it's reindeer ! Too much of a good thing !
The birth--

--rate has been so--

--high this autumn that ten thousand of them are driven
down from the--

--mountains into the valleys to be killed. They--

--belong to the Government, and King Haakon has--

--ordered that their carcasses shall be fed to the--

--poor during the--

--winter months. So the--

--hard-up families will dine on venison.

The hunters get the antlers to sell,--

--the Government gets about 500 kronas--

--for each hide, and the reindeer - - just gets hard luck !
