COAL AS CAR FUEL - - Inventor claims  
all the advantages of a petrol-drawn car,  
without the bills for petrol !

---

Picture.:- The high price of petrol has stung an --

--inventor so--

--hard that he has turned his petrol--

--tank into a coal furnace. He claims the car--

--will do 50 miles to the pound of coal,

-----When steam is up, and speed at one--

--hundred and fifty miles per--

--hour. A nice--

--winter car, complete with central heating arrangements.  
In summer the usual stoker's working shift--

--is recommended. The smoke abatement nuisance authorities  
are preparing for action, and the Chauffeurs' Union is to--

--insist that cars carry a janitor.
