Picture :- The Turkey Trot is becoming seasonable
again ! Girl students--

--of the West of Scotland Agricultural College Farm
at Auchincruive have instructions to allow--

--the turkeys to be as gluttonous as they like.
The birds don't mind. Gobbling is a--

--turkey's speciality. They don't know the sinister
idea behind all this generosity,--

--and the loving attention these girls are giving
them. At the same time they'r not so happy in
the embrace as some might be. He's trying to fly
away ! A poor compliment to the lady ! Well, he
will learn table manners very soon now !
