A 56-MILES ROLL : Roller skating "speed merchants"
in gruelling marathon of the highways.

-Greeley.U.S.A.-

Picture:- It's just been discovered that a roller-skating
competition marathon has never been--

--held. The defect is no sooner found than it is remedied.

87 skaters roll along 56 miles of--

--road to try to win a prize of seventy-five dollars
offered by the promoters. One man of--

--fifty-two has a shot--

--for it, but falls out.

Even quite nice girls roll home to the finishing
line, and that seventy--

--five dollars, but a man--

--Mr. Elbert Reagan wins it, and earns it. Fifty-six
miles for 75--

--dollars. He's glad that's over, and I'm not sorry !
