SOMETHING NEW - - (Number Six) -.- Another novelty :  
Automatic playing-card dealer for bridge enthusiasts  
ensures a 'straight deal' every time.

---

Picture.:- This is a useful invention, but very depressing  
for some people !

The person who makes--  
--his living by dealing himself aces from the bottom--  
--of the pack is out of luck.

The automatic playing-card dealer--  
--does all the shuffling and dealing, but never deals  
two rounds alike--  
--and never makes a miss-deal. In fact it--  
--seems to--  
--have more sense than most of--  
--the people who may use it.

You needn't count your--  
--cards. They're bound to be right, although they  
probably won't--  
--be the ones you want. All we want now is a Robot to  
play--  
--bridge for us,--  
--while we go and do something really useful !
