

C-815981

VETERANS OF THE ROAD - - Ancient motor cars commemorate
36th anniversary of abolition of the 2-miles-per-hour speed
limit.

-London and Brighton-

Picture:- None of these cars is younger than 28 years.
This Daimler is 38--

--years old. This one was made in 1896 and so was--

--this one. Old Crocks ! But the fact that they can
still move under their own--

--power speaks well for British engines. This Dedion
was run by a Doctor for 21--

--years. The annual run of veteran cars from London
to Brighton is in celebration of the abolition in 1896
of the 'mah with the red flag', and the two miles an
hour speed limit.

These cars show what marvellous work in design
and speed has been accomplished in a matter of--

--50 years. I wonder what the next 30 years will show
us !
