

LIKE SHELLING PEAS! - Fast workers  
compete in 9th annual world's corn-  
husking championship, at Galva,  
U.S.A.

-----

Picture: Another world's championship effort. Its American  
corn-husking this --

-- time. Competitors are allowed 80 minutes --  
-- for the work, and if e--  
-- one cob of corn is --  
-- left on a stalk, the husky --  
-- husker is disqualified. The --  
-- cobs not only have to be picked but --  
-- peeled as well. Skill and endurance --  
-- are required. Every action must tell. It is really a --  
-- test in efficiency and movement.

There is a thousand dollars --  
-- prize waiting for the one who --  
-- makes the record in bushels and the thousand dollars  
-- dollars is, well - quite a thousand --  
-- dollars these days. The signal bomb --  
-- ends it and the winner is searched out.

Carl Seiler of Knox County gets the prize --  
-- and it makes him smile. That thousand dollars --  
-- for corn picking ought to help the 'hops' business !
