

DOG LOVERS' PLEA - Monster petition
against proposals for dental experiments
on dogs arrives for presentation to
Parliament.

- Westminster -

Picture:- The Houses of Parliament ^{have} ^{been} often the scene of
many petitions but few have --

-- had more widespread sympathy than this one. Over three
hundred thousand people have signed an --

-- appeal to ask that dogs shall not be used for dental --

-- experiments. Epstein is the name of the dog you see and --

-- he's come to speak for himself. Sir --

-- Robert Gower M.P. receives the petition which --

-- asks for legal prevention of experiments proposed by --

-- the National Dental Federation. Notice how Epstein
adds his appeal ! Is he --

-- asking permission to assist science, or begging for mercy ?
Peer little bow-wow !
