BEASTS OF PLAY - - Wild animals rehearse
sensational performance in preparation for coming
'circus days.'

-Germany-

Picture.:- These beasts of the jungle are rehearsed to
take their place in a circus--

--performance. Ah ! Would you ! You great cat !
One word from the--

--trainer, and she does as she likes. This wheel--

--is enough to make any female giddy. I--

--prefer white mice in those things.

Oh Grandma ! What long whiskers you've got !

Training animals for show work is a ticklish job.
One never knows if--

--or when, they may get fresh and start a bit of--

--tickling themselves. Watch this hair-raising trick !

EFFECTS.

Isn't that nice ? Well. I know a better way to
play that game and--

--it's nearly as dangerous.
