MANCHESTER FAT STOCK SHOW - - Magnificent specimens
of 'beef in the raw' on exhibition at Christmas Show in
Trafford Park.

-Lancashire-

Picture. :- A seasonable version of beauty and the beast !
The Christmas Fat Stock Show at Trafford Park is inspected
by the Lord Mayor of--

--Manchester and Salford. Out of deference to the feelings
of the--

--animals, one song has been barred from the party--

--gathering. "The Roast Beef of Old England" is not
allowed. In--

--spite of the duties, there is a good show of Irish--

--cattle. They don't look worried thin either. Some of
them look quite proud of--

--their prize cards. A short-lived vanity ! In ordering
your next cut off--

--the joint and two veg, think of him !
