Picture. :- Young Mexico keeps green the memory of  
Francisco--

--Madero, or rather the rebellion he--

--led against Signer Diaz, twenty-two--

--years ago. They used to do these things with guns, but  
to-day it's done--

--with a super-sports demonstration. It doesn't--

--seem to fit the Mexico we learn--

--all about from the story films. There should be six--

--shooters and funny hats. Another illusion dispelled.  
This orderly demonstration seems to prove--

--that the flickers have deceived us. Anyway Doctor  
Rodriguez the new Mexican President is proud of this
