

ICE-YACHTING THRILLS - - Exciting moments  
in spectacular race on the ice at Red Bank.

-U.S.A.-

---

Picture:- Ever tried ice-yachting ? Well, here's a  
sample-

--of it ! If you think you would like it, all you  
have to do is to find some ice, and a yacht, and whoopee !

Watch these two boats - - ships - - or whatever they  
are, drawing ahead at a--

--speed of some sixty miles per hour. It's an exhilarating  
sport,--

--and not so easy in navigation as it looks. Tacking,  
and gibing is a--

--delicate operation. See that fellow tripping up with  
one skid ? A little stronger gust of wind--

--and over he would go ! But he doesn't ! Rather  
like dirt-track racing, except that it's the cleanest--

--dirt track ever known. One thing about this sport  
is that there is no question of--

--sea-sickness. The motion is as steady--

--as this picture. The race is over, and somebody has  
won ! But it's--

--such a beautiful evening that nobody really cares who !  
Ice-yachting looks good !
