SOMETHING NEW (Number Nine) Being a further  
selection of bright ideas put into practical form  
by clever people.

---

Picture:- This invention will prevent lady-like  
young house-wives--

--or bathelox girls from getting house-maid's  
knee, an affliction which--

--no-one likes to see. It's squeezed dry--

--in a second, ready for the next mopping job.

After that, a face and hair tidy is  
necessary. Too dark to see clearly !  
Switch--

--on the mirror light, and get out the lip--

--stick. Quite clear, isn't it ?
