WINTER SPORT IN SWITZERLAND - . Thrills of ski-jumping at opening of the famous Olympia Leap, at St.Moritz.

Picture.:- The famous Olympia Leap, at Saint Moritz starts its season ! When this happens, ski-ers of international fame fill the hotels of this popular Swiss resort to try the thrilling pastime of--

--breaking and setting up new records. The leap is--

--unique for trying the skill and courage of jumpers, but under--

--the weather conditions can be safely used only for a short season. This jump is beautifully timed and the landing is perfect.

Another just going off to sail hundreds of feet through the air before taushing the--

--snowy earth again. A fine leap ! But the landing - - not so good ! In fact--

--it's easier to leap well than to land well. A really bad--

--landing means that you go away on a stretcher. Thrilling, but here's something more--

--thrilling which has never happened.

(EFFECTS).

Who says the camera can't lie ?
