A TALL ORDER - - Dusky workmen defy danger to
give the towering Ochterlony Monument at Calcutta
its annual "wash and brush up".

-India-

Picture:- The Ochterlony Monument at Calcutta is
being given a clean new suit, which fits it-

--like the paper on the wall. The suit is made of
white--

-
-wash, so it should fit. The Monument is two feet
taller than the Nelson Column - - one hundred and
sixty--

--five feet. Nelson's hat tops one hundred and sixty-
three. Sir David Ochterlony's fifty years--

--of Indian service was its inspiration. The dusky
workmen face great risks on the flimsy bamboo--

--scaffolding, but their fatalistic beliefs tell them
that it--

--will happen anyway, if its going to, so why worry ?
