FUN IN THE SNOW - Young men and
girls revel in winter's first real
snow-fall at Buxton.
- Derbyshire -

Picture:- The snow-fall in the Derbyshire hills, near
Buxton, gives ample opportunity for enthusiasts --

-- to take the rust off their sledge runners --

-- and occasionally some skin from various parts of their --

-- anatomy -- but that's a sore point --

-- to discuss! The snow is firm, and good sporting speeds
are attained on the lenger --

-- stretches and the steeper inclines. This outfit is a
good example of speed --

-- and of -- er - sudden stop. Nobody i--hurt

-- is hurt, so the next team starts on --

-- its downward path.

Halle ! It is the only time when being 'bumped off' --

-- can be called a pleasure. Great --

-- stuff ! Lots of fun and hardly a bruise to show for it !
