

"CAN" IT! Glasgow students invite the public to
"can" their bawbees in the cause of Charity.

-Scotland-

Picture:- Glasgow students do no harder work during
their whole passage through the--

--University than they put into their efforts for
Glasgow's Hospitals.

(EFFECTS TO END OF SHOT).

Starting at midnight the raiders in the name of
charity work straight through the twenty-four--

--hours without ceasing. This year their slogan is
"Can it!" And the citizens of no mean city, despite
it being Scottish "can it" as willingly--

--as any can can! This show is frankly a twist.
But the end justifies the means. This round-up
for charity proves that the--

--ca' canny method sometimes pays. Anyway the
hospitals will benefit to the tune of thousands
of pounds.
