INTER-VARSITY ICE HOCKEY - - Oxford defeat
Cambridge 1-0, in the "fastest game in the world".

-Oxford-

Picture :- The inter-University Ice Hockey Match is
played in England this--

--year for the first time. The previous years' games
have always taken place at Saint-Moritz. Oxford
is expected to win fairly easily, but Cambridge is--

--putting up a splendid defence, and delighting the
most sanguine of their spectators. Both sides--

--are playing a brilliant and--

--very fast game. No question of easy scoring !
I think Oxford is rather--

--surprised at the quality of the opposition.
For Cambridge, Irvine and Plummer--are--

--doing wonderful attack work. R.T.Rogers is--

--showing himself a great defender. of Oxford attack
J.D.--

--Babbitt is outstanding. The only goal scored--

--at the very end of a thrilling game gives Oxford
the victory.
