LITTLE - - AND PERFECT - - Complete hospital in miniature built and furnished to the minutest detail to assist the King's Fund for hospitals.

-London-

---

Picture.:- Take a peep at one of the most perfect models in existence ! No--

--less than thirty-six of Britain's most famous contractors--

--have assisted in the building and equipment of this--

--miniature hospital. See the operating theatre in the centre !

A closer view shows its amazing completeness, not excluding a quiescent patient.

From the hygienically perfect kitchen, we may take a--

--lift to the wards. The liftman is a model of efficiency !

The work has been undertaken to help to provide--

--the sinews of war for King Edward's Hospital funds. Her--

--Majesty the Queen, the Princess Royal, and--

--the Duchess of York have all assisted in the--

--creation of this superb piece of craftsmanship. Comparison shows the diminutiveness of the whole thing. A small model to further the great work of scientific healing.
