ON THE ROCKS ! - - Dense fog causes
Aberdeen trawler "Ben Screel" to run ashore off
Girdleness.

-Scotland-

Picture.:- A drama of storm and sea ! Immediately
below the--

--lighthouse at Girdleness, whose light was blotted
out by--

--heavy fog, the trawler "Ben Screel", returning from
the Stromess fishing grounds, struck a rock standing--

--out from the wild coast of the Northern Seaboard.

After terrible exposure, during which boiling
waves seethed over the whole vessel, the crew were
rescued by breeches buoy, but several were badly
smashed against the rocks in their perilous journey
to safety.

From the position of the unfortunate trawler,
it looks unlikely that she will be salvaged !
