

OLD STYLE WEDDING - - Whole town of Kyoto turns out to witness bridal ceremonial in the manner of centuries ago.

-Japan-

---

Picture.:- If you've never heard a Japanese Wedding March, you can see--

--it. This is the way nuptial knots were--

--tied centuries ago in old Japan.

There's the bridegroom and he looks--

--just as comfortable as most grooms. The bride is taken--

--to church the same wobbly way, but out--

--of respect for her--

--tender qualities, she is carried on a throne of soft cushions. The bridesmaids--

--travel behind carrying the bride's trousseau. Like all Eastern ceremonies it is more--

--picturesque than Western ones, but the result is much the same.
