ON TOW ! People of the mountainous region  
of Semmering enjoy the super-thrill of motor-  
cycle skjoring for the first time this winter.

-Austria-

---

Picture:- Austria decides that ordinary ski-jumping is  
dull, so--

--this is the next quickest way--

--to get a free ride in an ambulance.

They go for a tow in the--

--snow. Motor-cycles pull the ski-ers--

--at tremendous speeds. There's one just missed a bad  
skid !

A mile a minute, on a twisty--

--mountain road. Hello ! There's a candidate for the  
next empty bed. Never mind !

They will recover in time for a summer holiday !

The winners cover the dangerous course of three  
kilometres in--

--three minutes.

They congratulate each other that they have arrived  
all in one piece. But they are--

--bred on this sort of thing. Instead of eating coal when--

--mother isn't looking, they do this. All is--

--over between he and she !
