ICE BATHING PARTY - - Swimming enthusiasts
welcome the joys(!) of a bathing pool in the ice.

-Manchester.U.S.A.-

Picture:- At first glance this may look like the--

--good old summer time, but it isn't. The thermometer
is--

--just four degrees above Zero, and these Yankee boys
and girls have persuaded themselves that bathing in
liquid ice is a jolly game. Brrh ! - - Well, there
must be--

--some warm attraction somewhere. America invented hot--

--music, Maybe this explains why ! It wants explaining
anyhow ! They say--

--they love the cold. But none--

--of them turns down the offer of a cup of hot tea,--

--just to prove that they like it. (SPLASH).

A 50 foot dive, to finish off the party ! (SPLASH)

And that's a bathing suit ! The strait jacket, ^{type} and
very suitable !
