A NEW LEASE OF LIFE - - The famous old sailing ship "Lady of Avenel", to come from retirement for conversion to a pleasure yacht.

-Leith, N.B.-

---

Picture:- "Lady of Avenel", a lady with a past !, is being given a new lease of life.

She is being fitted up with new frills and furbellows for use--

--as a cruising yacht. Sixty-years-old, she is still skittish with a--

--heavy swell. When she was fifty-two--

--she carried Commander Worsley and his band--

--of Arctic explorers to the Frozen Wastes of the Northern latitudes. The ancient winch is still--

--used. The ship was badly damaged by ice and--

--when all but sinking, was towed back to Spitzbergen. Now at--

--Leith, she is getting once more in trim for voyaging, but this--

--will be a sort of retired amble; age being treated --

--with respect. No more battling with the Polar pack. Just a quiet end to a useful life.

God luck, old lady, and good sailing !
