TIMBER GLEANING - - - Workless men welcome novel scheme to preserve their physical well-being while out of regular employment.

-Penicuik, Scotland-

---

Picture:- These Scottish lumber-men are drawn from the swollen ranks of the unemployed. The British Legion of Penicuik has organized this work. It--

--serves to keep the men occupied and in good physical condition. They prefer it to--

--loafing about a club and playing dominoes or Crown

---and Anchor. Local land-owners have--

--welcomed the Legion's offer to clear dead wood, uprooted trees, stumps etc and retain what timber--

--they get from their activities. The district's house-wives are glad enough to receive the free firewood.

Let's congratulate the Legion's initiative in beating up work like this is better than beating a drum.
