ON THE "RED" - - New world speed record
created in American National bob-sled championship
at Lake Placid.

-U.S.A.-

Picture:- A bob sleigh team called "Red Devils"
starts off down the slide in the--

--National Bob Sleigh Championship, at Lake Placid.
In a couple--

--of minutes the speed is terrific. But for--

--the snow banks, they would fly off at a tangent--

--towards disaster. They know that too, but keep
going like the stone from a catapult, and come
home as quick as a scalded cat.

But the day's real winners are the 'Lake
Placid Bluebirds'. And can they fly? They
smash--

--all records for the world's fastest bob
sleighbing. They arrive--

--in a cloud of--

--snow after covering one-and-a-half miles
in just over a minute on the world's fastest
toboggan slide.

Now they want to find something really
quick!
