PUSH AND GO ! - - 150 competitors  
experience heavy going in cycling cross-country  
race at Burgh Heath.

-Surrey-

---

Picture:- The first bunch starts off for Burgh  
Heath in the cross--

--country team cycle race. A second lot quickly  
follows.

Forty teams compete, just to show that push-  
bikes haven't yet had their day.

Sticking in the mud takes up a lot of time.  
Parts of the ground are like miniature bogs,  
and it's often quicker to walk than ride ! Effects  
of the snow--

--and thaw are still hanging about, making it  
impossible--

--to keep in the saddle. Come out of that  
puddle - - and you goo !

These cyclists are gluttons for work,  
aren't they ? But--

--once at the top of the hill, their girl-friends  
(some in plus fours) cheer--

--then on their sticky way to the finish. The--

--Southwestern "A" team carries their load of  
mud quickest, and wins !
