TRAINING ON THE SANDS - - Flooded grounds  
compel racehorse trainers to take their charges to  
the beaches at Redcar.

-Yorkshire-

---

Picture:- For a week or two now, race-horses from  
many Northern stables haven't felt springy turf beneath  
their hoofs. The floods have submerged their grass  
galops, so trainers--

--have taken their horses to the sands. They must be  
kept fit with--

--the flat racing season so near. This is Mr. --

--W.Easterby's string exercising at Redcar. Racing  
fans may recognise some of them. "SPIRAK", "INVERMAN",  
"CAVENDO", TAVERNER", "SIMPLON"--

--and "COROADO". "COROADO" is a Derby entry and  
possibly a maker of fortune for you,--

--but more likely for the bookies. "SIMPLON" is  
also a Derby entry,--

--whilst "INVERMAN" is running <sup>in</sup> the Lincolnshire  
Handicap. His Lincoln Jockey D.McGregor rode  
him in--

--the galop just now. Mr.Easterby looks upon  
"COROADO" as his most promising youngster.  
A tip,worth remembering !
