

2254951

OUR NAVY'S LATEST - - Newest addition to  
Britain's undersea fleet H.M. Submarine "Starfish"  
successfully launched at Chatham.

-Kent-

---

Picture.:- The third and last of the submarines built  
under the 1930--

--program. Success to "STARFISH" is not only--

--on that shield, but on everybody's lips when the  
Mayor--

--of Gillingham arrives to perform the christening and  
launching--

--of this under-seas monster. The usual bottle of  
the best--

--is smashed. Fair words are spoken and--

--the ship moves down the slips to the water.

(EFFECTS)

The best I can wish her is that she never  
has to fight.

(EFFECTS).
