OUR NAVY ASHORE - - Universal Talking News
presents privileged pictures of normal activities
in the great naval barracks.

-Portsmouth-

Picture.:- Never before has so much inside information
and intimate detail about the Navy been screened.

Here is Commodore F.J.Sommerville, D.S.O.,--
--presiding at the ceremony of changing the naval guard--
--at the Royal Naval Barracks, Portsmouth.

(BAND FOR MARCH AWAY - - 18 FEET)

Battalion parade and drill ! In this part of his
duty, Jack appears not only--

--as a sailor, but as an efficient soldier. Notice
that nearly all movements are--

--at the double - - especially this one ! It's
mobilization muster, for which every man--

--jack in the Barracks has to turn out, and lively
too ! Each fortnight it happens, and the call-in
ensures--

--that in an emergency, full ship's crews are immediately
available. Even the cooks leave their pots and run for
it ! In a matter of seconds--

--after the call, the Commander reports 'all present' to
the Commodore. On dismissal--

--from the Muster, the budding Nelsons run just as
fast to their pay stations to--

--draw their much-needed 'tough'. I suppose that's
what they call the "Nelson touch" !
