THE AMERICAN WAY - - Football coach puts candidates for University team honours through their paces, at South Bend.

Picture:- This is how America starts to train her football aspirants ! First, a full-tilt rush at the coach. Pick 'em up !

The boys have been resting all the winter, but a spell at leap-frog soon loosens the joints and stretches the--

--muscles. Here's the new pig-skin !

And up she goes ! They're happy, because there's a kick coming to them. And now--

--a little strenuous diving through the tackling machine. A few weeks at this sort of thing--

--and they will be as hard as hickory-nuts !
