LINCOLNSHIRE HANDICAP - - Strenuous work at clearing waterlogged Carholms course secures the running of the first big event of the 1933 flat-racing season.

Picture:- The Lincolnshire Handicap is to be run, but only just! Forty-eight hours ago,--

--the course was under water, and it's only by the winning of another race against--

--time by gangs of workmen that this famous Handicap wasn't washed out!

The horses are out, and the jockeys are up. The favourite "Solenoid" is capering about, wanting to get away, and so--

--is "Clogheen", another heavily backed horse. Thoroughbreds like these always strike one as being nervous and highly--

--strung before a race. Maybe there are! There's the starter mounting his stand, and in a second or so, they will be off,--

--and the race will be on! There's "Heaven Sent" on the inside, close to "Wraxhall" and--

--"Young Native". All seems ready! My watch must be fast. No! There's the gate! Up! And they're off! Nicely!

(EFFECTS).

"Winster", "Totaig" - - No "Varsity Express" is leading. "Dorigen" is coming through. "Solenoid" is coming up! "Dorigen's" passed "Varsity Express".

And is first past the post! Then "Solenoid", "Varsity Express", "Winster", followed by all the others you thought might win. A good race, won by the--

--Honourable George Lambton who himself trained his entrant. Here he--

--comes leading "Dorigen", with Weston up. That horse has a

--fine head. But if he thinks with it, he didn't think of me.
