

2 SP41051

SOLDIERS V SCHOLARS - - The newly formed  
Catterick Camp Fencing Club defeats Leeds  
University team at Catterick.

-Yorkshire-

---

Picture:- Modern soldiers go back to one of the  
oldest forms of combat, when the Leeds University  
Fencing team meet--

--the newly formed Catterick Camp Club. The  
soldiers have made excellent progress. Their--

--speed and precision is worth watching - - quick  
thrusts - - a lunge or two, and touchez ! The  
lightning movement of feet, wrists and foils  
are wonderful examples of perfect co-ordination of  
brain and muscle. By an imperceptible twist--

--of the blade, an opponent is disarmed, and with  
a knightly gesture his weapon is returned. Catterick  
wins--

--the foils match. Now it's sabres ! With foils  
only thrusts to the body are --

--allowed, but with sabres it's out or thrust  
to any part of the body or head.

The soldiers also beat the students in this  
contest. Major --

--Pendlebury, captain of the new Catterick Club  
ought to look pleased.
