KEEPING FIT - - Lassies of Leeds show splendid form in practice for public display of physical culture.

-Yorkshire-

Picture :-

Leeds lassies long to be lithe,--

--supple and strong. That's a very bad rhyme, but--

--this is a very good exercise. Bending almost to breaking point.

Those nobbly knee muscles look useful. Leeds boys will have to--

--watch their step and behave, or that's what will happen !

Or perhaps this ! The fall of Adam !

All this practice is in preparation for a great physical culture show to be held in May. By that time the girls hope to rival Venus in shape and line,--

--if they don't already. When the sun came out, they changed into--

--bathing costumes to better show their form and movement. Vaulting horses are their hobby, and they ride 'em hard. Up ! Over ! Up !

And if that's not fast enough, watch this !
(Pause). Pretty good work ! A credit to their instructor and their sex !
