FIRE ! FIRE!! FIRE !!! - - Edmonton brigade
demonstrate the speed and efficiency of our
splendid fire-fighting force.

-London-

Picture.

EFFECTS.
EFFECTS.
EFFECTS.

(3 shots).

And that's how quickly the Edmonton fire brigade
turns out to a practise --

--call. For a real fire - - well - -Their name is
lightning.

In the face of danger, they just do their job and
keep--

--calm, but the fire gets awfully put out.

A new kind of spray. The wettest ever invented.
(PAUSE).

These hook ladders can be used to scale the
--

--front of the house when an escape cannot be
put --

--in position and effect rescues from upper
storeys. (Pause).

Modern apparatus enables the fire-fighters to
enter this boiler house and rescue victims overcome
by fumes (Pause).

The poor fellow is laid out for the second time
on a rug--

--and artificial respiration is used to restore normal
breathing.

Great fellows these ! Voluntary workers !
They believe that virtue is its own reward.
