"FLYING CIRCUS" - - Most up-to-date "travelling
circus" starts its tour in aid of British Hospitals.

-Hayes.-

Picture.:- Miss Evelyn Laye receives a large bouquet
from a small boy and in return provides him with a
life-long distinction by kissing him. He doesn't--

--know his luck. Miss Laye is photographed with the
two--

--girl pilots who are part and parcel of this most--

--modern circus. A travelling air-circus, organized in aid
of British Hospitals. There are--

--fifteen machines ! The personnel includes several--

--famous stunt flyers. The leader is Mr.C.W.A.Scott,--

--the England-to-Australia record holder. That's
Captain Phillips, D.S.O. in the air now !

Mr.Willis shows you how easy it is to walk
about on the wing while--

--travelling at one-hundred miles an hour (PAUSE).

The crowd qualifies for a crick in the neck.

A new rendering of the old picture "Dropping the
Pilot". The parachutist is Lieutenant A.G.Hill.

Two-hundred towns will see this air circus
and help them their hospitals.
