IN " HIGH" SPIRITS ! Daring steeplejack
removes menace of spire hit by lightning - -
and enjoys doing it !

-Brooklyn-

Picture.:-

Lightning struck this Church spire at
Brooklyn, and there--

--weren't many people who rushed for the job of--

--looking for the damage. These two steeplejacks,
however, took--

--it in their stride as it were ! A--

--piece of rope and a lot of nerve are their stock-
in-trade.

Let's hope their child-like trust--

--in that rope is not misplaced. If it gets tired of--

--that tig business, the City will be two steeplejacks
short - - - and don't let's think of the--

--mess. The report of the spire's damage is reassuring,
so the inhabitants can again sleep peacefully in their
beds.
