"GIPSY LEE" - - Gipsies from all over the country assemble at Farnborough to attend the final passing of Mrs. Boswell, their 82-years-old "Queen".

-Kent-

Picture.:-

There passes the last of a "Queen" !

Following the hearse come representatives of the Romany--

--people who acknowledged her authority in life and attend to pay homage at her funeral

The Queen's name was Urania Boswell, known throughout the--

--world of gipsies, whether in Warsaw, Prague, Bucharest, or Seville, by her family name of "Gipsy Lee".

Birth is the time to--

--mourn. Death is a release from doubt and anxiety. To grieve at death is foolish.

Thus runs the gipsy philosephy. So the mourners---

--if we may still call them that talked,--

--laughed quietly and some smoked at the final passing of their "Queen".
