have a rough time in the Ilkley Reliability Trial
at Otley.

-Yorkshire-

Picture.

Forty-eight of Yorkshire's champion motor-
cyclists--

--get together to ride in--

--the Ilkley Grand National. A severe--

--reliability test over 59-miles of rough country.

Spinksburn Bridge is a trying spot.(EFFECTS).

The twin splashes are called "Spots 'em, and
Wets 'em "--

--with apologies to the radio stars. These riders
are not so alone as they look at first sight. - -
After the smoke - - the moke ! (REUSE). That donkey
is ass enough for anything.

The winner gets a fifty guineas cup, and earns it !
